PERSONAL STATEMENT

Software Developer(Front-End) with tested experience at Eryeol Incoporation in helping companies create and maintain a better code base for reusability. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency.

WORK EXPERIENCE

Front-End Developer

Eryeol Incorporation

📅 January 2022 - current   📍 Remote

- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Participated in the initial wave of developers learning and implementing the React.JS library.
- Designed and implemented an e-procurement website along with the team members of the company.
- Researched best software development technical requirement needed for effective website designs in the 21st century.
- Led a team of 4 people for an investigation on Africa's e-commerce software development best practices.
- Maintained graphic standards and branding throughout the product's interfaces.
- Utilized HTML, CSS, and JavaScript to create 50+ responsive landing pages for both company and client.
