Work Experience

Jul, 2020-Present

Front-End Developer – Telmie
  • Telmie is a platform for making video calls and pay-as-you-go calls, or to book single or multiple appointments, in the easiest and most convenient way to find and consult trusted experts with a mission to make expertise available to everyone.
  • As a frontend developer, I started with website design and developed a website frontend using React JS.
  • With Adobe XD, I have delivered attractive, clean designs that attract thousands of customers and drive business success.
  • Here we use the JavaScript framework React JS and build a flexible and modern frontend with powerful ideas.
  • I also worked with backend developers to enhance security and manage on-site assessments, internal audits, and customer surveys.

Jan, 2020-Jul, 2020

Senior PHP Developer - The Dog Line Pty Lt
  • Designed and maintained web forms and banners using PHP and Laravel framework.
  • Used PHP, HTML, JavaScript webpage coding integrated with MySQL using Apache http and optimized PHP project running on Laravel Framework.
  • Designed, Developed, Coded, Tested and Debugged system requirements for conversions and development projects.
  • Performed full life-cycle development, Planning and integration of web based software solutions using PHP, MySQL, HTML, CSS and JavaScript.
  • Researched and collaborated with coworkers to find solutions for complex coding problems.
  • Setup & Managing windows Servers on Amazon using EC2, EBS, EBS, and IAM.
  • Managing CDN on Amazon Cloud front to improve site performance. Ensured that all work complied with client established standards and guidelines.

2017-Jan, 2020

Web Designer - Agile Clouders, Los Angeles CA
  • Agile Clouders is a digital product consulting firm with a team of experienced and passionate product managers, designers, and engineers that assist companies in digital transformation, new product development, technology consulting, hands-on training and coaching.
  • Hired as a Web Designer, I maintained, updated, and developed new sections of the Macropics website on a daily basis.
  • I used Adobe XD to deliver a user-friendly and visually manageable creative design.

• By actively listening to the customer's requirements, we confirmed that we fully understood them, and built the project using React.

2015-2017

Full Stack Developer – Complete CSM
• Customer Success Management and AI giving best practices and digital management to CSM teams across the globe.
• Responsible for all backend product development such as b2b and b2c portals, managing repositories, hosting, databases, and all related infrastructure.
• Managing the end-to-end life cycle to produce software and applications.
• Overseeing and guiding the analyzing, writing, building, and deployment of software.
• Expertise in front-end technologies, including JavaScript, CSS3 and HTML5 and third-party libraries such as React Js, Angular, jQuery and LESS.
