EDUCATION HISTORY

University of Delhi   2010-2015

Master in Computer science

WORK EXPERIENCE

NFT projects   2010-2014

- My small team and I build NFT marketplaces, deploy smart contracts, create NFT website, NFT staking platform and develop game on blockchains for small to medium size businesses.

Blockchain & Crypto Projects   2016-2018

- As a Blockchain developer, I specialized in custom cryptocurrency and blockchain development. I have many experience in creating Crypto exchange website, Crypto wallet app, Mobila Apps & Smart Contracts, Game development,Website developments, Defi & dApps projects and so on.

Front-end & Back-end development   2018-present

I'm Front-end Developer and UX/UI Design. I have experience on Javascript, React, NextJs, HTML, c++, CSS, Python & Solidity. I'm also seasoned software engineer with industry experience in core back-end development in a renowned cybersecurity firm and having a post-graduate degree in Mathematics and Computer science from one of the best colleges in India.
