Languages

English

Summary

Innovative, creative, and a proven team player and 8 years experience of building, developing, and managing websites, applications and programs for various organizations. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I always look forward to learn new languages while sharpening existing skills. Interested in securing the position of Senior Web/Mobile Developer at talented engineering team, hoping to share great skills, expertise, and experience with company's team and valuable clients.
